

# CYBER SECURITY ROADSHOW

CYBER RISK & SECURITY TRAINING FOR INDUSTRIAL CONTROL SYSTEMS

Registration 09:00

Start 09:30

End 16:00

Registration fee: 750SEK non-attendance will be charged

**Göteborg 14-maj**  
Scandic Mölndal

&

**Malmö 16-maj**  
Clarion Hotel Malmö Live

## Morning Sessions

## Afternoon Sessions

Learn about the importance of securing Industrial Control Systems and the methods and tools you will use.

- Overview of Industrial Networking (OT) including zones and conduits in accordance with IEC62443
- How to optimise the use of security functions offered by Layer 2/3 switches and WLAN devices

- Using Stateful Inspection firewalls as your first line of defence, and content inspection firewalls to create secure zones
- Software tools to lighten the load of security configuration and supervision compliance auditing
- Reduce travel costs and increase your employees' efficiency using secure remote diagnostics
- Time Sensitive Networks (TSN): securing the protocol of the future
- Live demos will reinforce your understanding of the methods and tools used to secure an Industrial Network
